RULE CHANGES AS OF 2020:

PITCHING RULE CHANGE:

Pitcher's stride foot positioning

The stride (non-pivot) foot may be on or behind the plate as far back as desired. Once the pitcher initially sets the toe of her stride foot, she may not step, drag or slide it back any farther.

This will be following the NCAA rules for pitchers this season.

I have attached the actual rules as stated by the NCAA

Pitcher taking signal

- Pitcher must take the pitching signal only from the required pitching position (on the pitcher's plate, hands apart).
- Hand signals/verbal may come from the dugout prior to the pitcher being on the pitcher's plate
- However, armband information must be gathered by the pitcher while on the pitcher's plate and in the pitching position.
- Pitching signals from the catcher may be given only when the pitcher is in the pitching position on the pitcher's plate.

NCAA is emphasizing that illegal pitches be called for violations of this rule.
